## Introduction

### **1. Powers, Duties, Implementation & Review**

- 1.1 In March 1996 City of York Council (The Council) adopted Part 2 of the Local Government (Miscellaneous Provisions) Act 1976 (the 1976 Act). This legislation, together with the provisions of the Town Police Clauses Act 1847 (the 1847 Act), places on the Council the duty to carry out its licensing function in respect of hackney carriage and private hire licensing. As such the Council is responsible for the licensing of private hire drivers, vehicles and operators and hackney carriage drivers and vehicles. The Council is also responsible for the setting of Byelaws in relation to hackney carriage drivers and vehicles.
- 1.2 This document sets out the policy that the Council will apply when making decisions about new applications and licences currently in force.
- 1.3 In formulating this policy the Council has considered the advice contained in the 'Taxi and Private Hire Vehicle Licensing: Best Practice Guidance' issued by the Department for Transport (DfT), first published in March 2010, and the Statutory Taxi and Private Hire Vehicle Standards issued by the DfT in July 2020. The DfT also carried out consultation with an extensive range of stakeholders, including taxi operators and drivers, passengers, passengers with a disability and local businesses.
- 1.4 In exercising its discretion in carrying out its regulatory functions, the Council will have regard to this policy and the objectives set out in point 3.1.
- 1.5 Notwithstanding the existence of this policy, each application or enforcement measure will be considered on its own merits. Where it is necessary for the Council to depart from the policy, clear and compelling reasons will be given for doing so.
- 1.6 This policy was considered by the Licensing and Regulatory Committee on (date to be determined by committee) and was approved by the Council on (date to be determined by Council) and take effect from this date. Certain provisions within the policy will not take effect until a date specified with the relevant provision. In exercising the taxi licensing functions of the Authority, the relevant Committee and Authorised Officers shall have

regard to this Policy and to the standard conditions contained within the Appendices when considering each licence application and shall apply such conditions as they think fit in each case.

- 1.7 The Council will keep this policy under review and will consult where appropriate on proposed revisions. Reviews will take place in line with the requirements to undertake unmet demand surveys, once every five years.
- 1.8 The Council expects licence holders to comply with the terms and spirit of this policy immediately or, where appropriate, from the renewal of a current licence. Where it is not possible to comply with part of the policy due to an outstanding action required by the Council information will be provided as to an implementation date for that part.
- 1.9 From the effective date, this Policy will replace and supersede all existing policies in relation to hackney carriage and private hire licensing. There have been no changes to the Byelaws relating to hackney carriage drivers and vehicles.
- 1.10 The first purpose of the Local Authority when licensing hackney carriage and private hire, vehicles, drivers and operators is public protection. This will however be construed in its widest sense. The Council is aware that the public should have reasonable access to safe and comfortable hackney carriage and private hire vehicles because of the role they play in the local transport system.
- 1.11 A hackney carriage is a public transport vehicle with no more than eight passenger seats, which is licensed to 'ply for hire'. This means that it may stand at designated taxi ranks or be hailed in the street by members of the public. A private hire vehicle can only be licensed if it is constructed or adapted to seat up to eight passengers, they must be booked in advance through an operator and may not ply for hire in the street. In this policy, the term 'hackney carriage' and 'private hire' are used specifically in relation to the relevant licences. The term 'taxi' is used in relation to 'hackney carriage' and 'private hire' generically unless otherwise stated.

## **2. Profile of York**

- 2.1 City of York Council covers an area of 105 square miles and comprises the urban area of York which is surrounded by many small rural and semi-

rural settlements. More than 201,700 people live in the Council area (2022 est. from Office of National Statistics). In 2017, York was declared the first 'human rights city' to act as 'a catalyst for York people, businesses and organisations to champion a vibrant, diverse, fair and safe city'. In 2019, the Council declared a climate emergency. Whilst the over-riding objective is public protection, for these reasons public protection is construed in its widest sense, and any of the requirements in this policy are set in this wider context.

- 2.2 The Council is striving to reduce the number of people using their own car for journeys which can be made by other means, including encouraging more journeys by taxi (see para 2.5 below for the taxis we are encouraging). As well as the environmental benefits, the approach is intended to free up the road network for improved public transport and for those who need to use private vehicles because there are no alternative means for their particular journey. Taxis provide a flexible form of public transport in situations where other forms of transport are not available including rural areas and late evenings. They take residents to work, school, medical appointments, shopping and entertainment in the city centre and retail parks amongst many other places. It is recognised that taxis play a crucial role in assisting people with disabilities to live more independently, giving them greater control over their lives, as well as providing a vital service to vulnerable members of the community including lone females because of the door-to-door service they provide.
- 2.3 York remains a nationally and internationally prominent City for a range of reasons. Not only is it an historic centre for England, and an important location for the Church of England. It is one of the most visited destinations in the country. As such, hospitality, tourism and leisure are key industries. Our visitors also rely on taxis. York races, and other events such as a leading Christmas Market increase the demand for taxi journeys at certain times of the year. The city is also a centre of academic excellence, with two universities, and two colleges of further education – taxis are an important means of transport for students.
- 2.4 The city is home to a major railway station on the main east coast railway line linking London and Edinburgh and other major towns and cities in the county. It is recognised that taxis play a key role in transporting people at the beginning and end of their train journey.

2.5 This policy therefore supports the important contribution that the hackney carriage and private hire trade make to the local transport system within the authority area. The policy however encourages – in as far as it is legally permitted – the use of locally licensed drivers and vehicles and those licensed by other authorities which at least meet the standards in this policy. For the avoidance of doubt, we respect the so called ‘right to roam’ for drivers (and vehicles) who meet the standards of this policy. However, we do not encourage ‘licence shopping’ by Private Hire operators using ‘sister operators’ (i.e. private hire operator licences obtained in other authority areas where they do not routinely undertake private hire work) to enable drivers who do not meet our standards to licence there and predominantly work in York regardless.

### **3. Objectives**

3.1 The Council shall seek to promote the following objectives:

- a) Protect the interests of the travelling public by ensuring:
  - i) that safe, clean, reliable, and where possible, accessible vehicles are available for all who require them.
  - ii) drivers of such vehicles and private hire operators are ‘fit and proper’ persons.
  - iii) compliance with legislation including that relating to equalities and reporting of safeguarding concerns for children and vulnerable adults.
- b) Provide clarity to licence holders and applicants with regard to the Council’s expectations and the decision making process.
- c) Provide the travelling public access to an efficient and effective public transport service. This includes ensuring that drivers have local knowledge of the city to help passengers avoid congestion and temporary changes to the road network caused by roadworks, and events such as the races as well as the city centre pedestrian zone. In doing so avoiding unnecessary prolonging of journeys.
- d) The protection of the environment and encouraging environmental sustainability particularly through vehicle emission standards.

- e) Encourage high standards of professionalism in the hackney carriage and private hire trade and encourage new entrants with the necessary attributes into the profession.

3.2 This policy shall apply in respect of applications, renewals, transfers and any other related matters connected to the following licences:

- a) Hackney carriage drivers
- b) Hackney carriage vehicles
- c) Private hire drivers
- d) Private hire vehicles
- e) Private hire operators

#### **4. Licensing Methods**

4.1 The methods the Council shall use are as follows:

- a) Setting the standards for the licensing of drivers, vehicles and operators.
- b) Annual licensing and inspections of vehicles, with appropriate follow up action.
- c) Routine inspection of insurance policies and Certificates of Compliance / MOT certificate, with appropriate follow up action.
- d) Checks on driver's medical health, driving ability, criminal records and rights to work.
- e) Making sure drivers are adequately trained on matters such as safeguarding, equalities, disability awareness, knowledge of the city, road networks, conditions attached to licences and legal requirements.
- f) Investigate complaints with appropriate follow up action.
- g) Liaison with the Police and other agencies regarding issues of mutual concern in relation to offences or the conduct of licence holders.
- h) Liaison with the hackney carriage and private hire trade as and when required.
- i) Taking enforcement and/or disciplinary action including the issue of

prosecution proceedings, verbal and written warnings, simple cautions, fixed penalty tickets and similar, suspension or revocation of licences for breaches of legislation or conditions.

- j) Conditions added to licences.
- k) The issue of guidance notes.

## **5. Decision Making**

5.1 The Licensing and Regulatory Committee has been established by the Council, this Committee makes recommendation to Council with regards to Policy matters relating to hackney carriage and private hire licensing. - vehicle fails an inspection;
- vehicle fails to attend an inspection;

- required documentation relating to the vehicle is not submitted when requested, for example insurance or MOT certificate;
- the vehicle has been involved in an accident and is no longer considered roadworthy.

5.4 Decision to refuse to grant, refuse to renew, suspend or revoke a driver's licence will be taken if the applicant or licensed driver is not considered to be a fit and proper person to hold a licence.

5.5 Decision to refuse to grant, refuse to renew, suspend or revoke an operator's licence will be taken if the applicant or licensed operator is not considered to be a fit and proper person to hold a licence.

## **6. Rights of Appeal**

6.1 An applicant or licence holder has the right to appeal any decision to:

- refuse to grant
  - refuse to renew
  - suspend
  - revoke
- a licence.

- 6.2 A licence holder has the right to appeal any conditions place on a licence.
- 6.3 An appeal must be lodged with the Magistrates Court within 21 days of the Council's decision notice being served.

## **8. Equalities**

8.1 The Council is committed to ensuring equality in employment and service delivery. To achieve this the Council is aware of its public sector equality duty under the following legislation:

- a) Sex Discrimination Act 1975
- b) Race Relations Act 1976/2000
- c) Equality Act 2010
- d) The Gender Recognition Act 2004
- e) Human Rights Act 1998

## **9. Hackney Carriage and Private Hire Associations**

9.1 The Council will only meet with and seek the views of hackney carriage and private hire association and professional bodies representing York's taxi trade if they meet the required minimum requirements:

- the association should be properly constituted;
- regular elections take place to determine the committee;
- Annual General Meetings take place, at which minutes are taken; and
- there is a current list of members of the association.

9.2 Information as to the associations committee, membership and meetings should be provided to the Council on request.

## Vehicles

A licensed vehicle is always a licensed vehicle and cannot be driven by anyone other than a licensed person.

### **10. Specifications**

- 10.1 The Council accepts that there are a wide range of vehicles available that are suitable for use as a hackney carriage or private hire vehicle. In accordance with Best Practice Guidance, all vehicles therefore shall have an appropriate 'type approval' which is either:
- a) European Community Whole Vehicle Type Approval;
  - b) M1 Low Volume Type Approval;
  - c) M1 UK National Small Series Type Approval; or
  - d) Individual Vehicle Approval (IVA)
- 10.2 As a guide, most large volume production vehicles produced in the UK and EU States after 1987 will satisfy British and/or European Whole Type Approval. Specialist vehicles or any vehicle that has been structurally modified, converted or imported from a non-EU State since its original manufacture will require separate ITA and /or Department of Transport Approval and such documentation must be submitted with an application.
- 10.3 Vehicles will be licensed for the carriage of not more than eight passengers. Vehicles may be licensed to carry fewer than four passengers subject to compliance with specifications relating to passenger comfort and vehicle conditions.
- 10.4 A vehicle will not normally be granted a licence if it has sustained accident damage resulting in structural distortion beyond the accepted limits of the vehicle manufacturer, or has been disposed of under insurance salvage agreement, (categories A and B); with regards to categories S (formerly category C) and N (formerly category D), it will be dependent on the level of damage. An independent inspection may be requested. This must be undertaken by an approved assessor who is recognised by Hire Purchase Investigation (HPI) provisions and the Council.

10.5 The suitability of a vehicle is determined by the mechanical and general condition of the vehicle under the following points, and additional matters subject to byelaws and vehicle conditions:

- a) Vehicle exterior
- b) Inside the boot
- c) Interior of the vehicle
- d) Engine bay
- e) Wheels and tyres
- f) Underside
- g) Roller brake test

10.6 Vehicles must carry a spare wheel and the tools required to undertake a change of wheel. Exemption from this requirement will be granted under the following circumstances:

- a) The use, in emergency only, of a space-saver tyre, run flat tyres (when punctured) or puncture repair kit for all vehicles that are manufactured and delivered with such tyres or kits as standard.
- b) That in the event of a space-saver tyre, run flat tyres (when punctured) or puncture repair kit being used, it is only to complete a fare and must comply precisely with the manufacturers' recommendations. Any such defective wheel should be replaced before taking another fare to ensure passenger safety.
- c) In cases where a rear loading wheelchair accessible conversion or a LPG conversion where the tank occupies the usual site of the spare wheel, is considered suitable, the vehicle should be exempt from the requirement to carry a spare wheel matching those fitted to the vehicle. This would be subject to the vehicle meeting the luggage criteria and being approved by the specialist converters. In these instances, an alternative space saver tyre or puncture repair kit must be carried on the vehicle for emergencies.

- d) All other licensed vehicles must carry a spare wheel matching those fitted to the vehicle and an appropriate means of changing the wheel.

## **11. Limitations on Numbers**

- 11.1 No powers exist for the licensing authority to limit the number of private hire vehicles that they licence.
- 11.2 The current legal provision on quantity restrictions for hackney carriages is set out in section 16 of the Transport Act 1985. This provides ‘that the grant of a licence may be refused for the purpose of limiting the number of hackney carriages in respect of which licences are granted, if, but only if, the person authorised to grant the licences is satisfied that there is no significant demand for the services of hackney carriages (within the area to which the licence would apply) which is unmet’.
- 11.3 The Council does restrict the number of hackney carriage licences issued. Unmet demand surveys are carried out every five years with new licences released when required.

## **12. Hackney Carriage Vehicle Licence Waiting List**

- 12.1 As the Council restricts the number of hackney carriage licences issued a waiting list of people who have shown an interest in holding a vehicle licence is in place.
- 12.2 People wishing to have their name entered onto the list must put their request in writing to the Licensing Section. Their name will be entered at the end of the list.
- 12.3 It is the responsibility of the person whose name is entered on the list to notify the Licensing Section if they change address. This must be done in writing.
- 12.4 The Council will write to everyone on the waiting list once every five years, to confirm their position on the list, and ask for written confirmation that they wish to remain on the list. If written confirmation is not received by the date specified their name will be removed from the list.

### 13. Private Hire Vehicles

- 13.1 A private hire vehicle is a motor vehicle constructed or adapted to seat no more than eight passengers which is provided for hire with the services of a driver for the purpose of carrying passengers. Every hiring of a private hire vehicle must be pre-booked through a licensed private hire operator. Any vehicle used as a private hire vehicle must be licensed under the provisions of the 1976 Act.
- 13.2 Before granting a private hire vehicle licence the Council must be satisfied that the vehicle meets the following criteria:
- a) Is suitable in type, size and design for use as a private hire vehicle.
  - b) Is not of such design and appearance as to lead any person to believe that the vehicle is a hackney carriage.
  - c) Is in a suitable mechanical condition.
  - d) Is safe.
  - e) Is comfortable.
- 13.3 Conditions may be attached to the grant of a licence as are considered reasonably necessary.
- 13.4 In addition to the legislative requirements the Council has approved conditions relating to the specifications of the vehicle and other matters. Standard conditions are attached at Appendix 1.
- 13.5 General conditions are also attached to private hire vehicles licences relating to the identifications of the vehicle, (including door signs and artwork) and safety issues. These are attached at Appendix 2.
- 13.6 From (**date to be determined by committee**) private hire vehicle must be any colour other than black. This requirement will apply to currently licensed vehicles upon change of vehicle. Private hire vehicles that have been granted the 'Private Hire Vehicle Licence Plate and Signage Exemption' (Executive Vehicles), will be exempt from this requirement.
- 13.7 Vehicle side plates (door signages) must comply with the requirements of

the standard conditions at Appendix 1.

13.8 Artwork for vehicle side plates (door signage) must be submitted to the Council's Licensing Section for approval and must comply the following guidelines:-

- a) The design of the side plate must be uncluttered and must clearly show the information required by the private hire conditions.
- b) All lettering must be in solid block print, not just an outline and contrast in colour from the background so as to be easily read from a distance.
- c) Side plates may include the private hire company logo.
- d) Advertising of third-party products or services is not permitted on side plates.
- e) Side plates must not contain any offensive or indecent information.
- f) Faded and damaged licence plates and livery must be replaced.

#### **14. Hackney Carriage Vehicles**

14.1 A Hackney Carriage is a wheeled vehicle (motorised, horse drawn carriage and pedicabs) used in standing or plying for hire that is required to have a numbered plate fixed upon it. The legal definition of a hackney carriage is contained in the Town Police Clauses Act 1847.

14.2 A Hackney Carriage Vehicle can ply for hire and wait at a hackney carriage stand (rank).

14.3 Conditions can be imposed upon the grant of a Hackney Carriage Vehicle proprietor's licence and the Council has Byelaws to control the conduct of both the proprietors and the drivers. Standard conditions and Byelaws are attached at Appendix 3 and 4.

14.4 From the (**date to be agreed via committee**) Hackney Carriage Vehicles must be a single colour, black. This requirement will apply to currently licensed vehicle upon change of vehicle.

- 14.5 The Council has determined that it will issue a maximum of ten licences to pedicabs. As a pedicab is a licensed vehicle the rider must hold a hackney carriage drivers' licence. Pedicabs can ply for hire, for safety reasons it is recommended that they only rank at Tower Street and at the rear of Duncombe Place during the day. The 'Code of Conduct' for riders and proprietors and standard conditions are attached at Appendix 5.
- 14.6 The Council has previously licensed horse drawn carriages who offered a toured route of the city, part of this route allowed access through the pedestrian zone, they were also allowed to rank at Duncombe Place. Due to the expansion of the pedestrian zone and the provision of counter terrorism measures across the city this route is no longer available, and due to the provision of loading bays and blue badge holders parking there is no longer provision for them to rank at Duncombe Place. If any applications are received for a horse draw carriage in the future engagement with relevant Council sections and partner agencies will take place. If required a consultation will be undertaken before a decision is made.

## **15. Accessibility**

- 15.1 The combination of the service they offer, and door to door operation means taxis and private hire vehicles are an essential mode of transport for many people with accessibility needs.
- 15.2 If the Council determines to grant and/or release any new hackney carriage vehicle licences, one of the requirements will be that the vehicle must be wheelchair accessible.
- 15.3 The Council recommends that private hire operators understand the importance of having wheelchair accessible vehicles as part of their fleet which are available to be booked 24/7. There is a standard condition in relation to availability of wheelchair accessible vehicles for the largest operators (i.e. those operating more than 99 vehicles).
- 15.4 Licensed drivers will be aware of the legal requirement to carry guide, hearing or prescribed assistance dogs within the licensed vehicle. The dog will remain with the passenger and an additional charge will not be made for carrying the dog.

- 15.5 Any licensed driver who has a medical condition preventing them from loading a wheelchair or carrying a dog may apply to the Council for a medical exemption. Written confirmation of the medical condition will be required from the licensed driver's doctor before an exemption is issued.
- 15.6 Where an exemption certificate has been issued and is properly displayed in the vehicle, the driver will be exempted from such duties as appropriate. Exemptions are specific to an individual driver and will not provide a defence for any other driver of a designated vehicle.
- 15.7 All licenced vehicles have the capability of securing a folding wheelchair in the luggage compartment, an additional payment cannot be charged for this service.

## **16. Insurance**

- 16.1 All proprietors are required to ensure that at all times during the duration of a licence there shall be in force a Policy of Insurance, or such security as complies with the requirements of Part VI of the Road Traffic Act 1988, in relation to the vehicle being used for private hire or hackney carriage purposes.
- 16.2 The proposer of the insurance must be the proprietor of the licensed vehicle. The Certificate of Insurance or Cover Note must clearly state the named driver(s) and vehicle details (NB This does not require proposer/proprietor to be a named driver).
- 16.3 In the case of a vehicle covered by a block insurance policy, the Certificate or Cover Note must be produced showing that there is insurance in force in relation to the use of the hackney carriage or private hire vehicle to which the application for the grant of licence relates.
- 16.4 It is an offence to drive a licensed vehicle without the appropriate insurance being in place. Requests to produce insurance may be made during the term of the licence. These requests must be complied with in accordance with the time scales stipulated in the request. Failure to comply with a request could lead to the vehicle licence being suspended or revoked.

## **17. Proprietor / Joint ownership of vehicles**

- 17.1 A person applying for a vehicle licence must be the proprietor of the vehicle to which the application relates. If the applicant is not the sole proprietor, they must name all joint proprietors including anyone involved in the day-to-day usage of the vehicle.
- 17.2 The V5 Vehicle Registration Document must be in the name of the applicant or in the name of applicant's company, the company name must be detailed on the application form. The applicant should include on the application details of any other person (or company) involved in the keeping, employing or letting for hire of the vehicle.
- 17.3 For vehicles which have more than one owner, documentation must be produced by the principal/lead owner, prior to the licence being granted, which clearly identifies names and address of each owner. This includes documentation such as a bill of sale (receipt), sales invoice or hire purchase agreement, and where appropriate a formal Statutory Declaration to evidence ownership completed in accordance with 21.5 of this Policy.

## **18. Advertising**

- 18.1 Where vehicle licence conditions permit, vehicles licence holders may place advertising material in or on their vehicle in accordance with their licence conditions. Approval must first be sought from the Licensing Office. Conditions under which advertising on vehicles will be permitted are attached at Appendix 6.

## **19. Vehicle Testing**

- 19.1 The Council needs to be satisfied that all vehicles it licences are safe. All vehicles are required to undergo an inspection conducted by an approved mechanic at the Council's workshop at the Eco Depot, Hazel Court, York, prior to being licensed and annually thereafter. If required, the Council will approve an inspecting centre in relation to the inspection of stretched limousines.
- 19.2 Vehicles exceeding five years old on the day the vehicle licence is issued (calculated from the date of first registration with the DVLA), will be subject to two vehicle inspections in every 12-month period. One inspection shall

be the initial grant or annual inspection conducted by the Council, the second inspection will take place approximately 6 months from the date of the initial grant of the vehicle licence or annual inspection at a date determined by the Council and can be completed by:

- a) presenting the vehicle for inspection by the Council's vehicle examiner within a time scale determined by the Council;
- or
- b) successfully completing a MOT test within a time scale determined by the Council.

19.3 The vehicle inspection carried out by the Council will consist of two parts which will comprise a mechanical examination and an inspection of the condition and fittings of the vehicle, to ensure that the vehicle conforms with the standard conditions attached to the taxi and private hire vehicle licences.

19.4 The purpose of the mechanical examination is to ensure that the vehicle is in a roadworthy condition. It should be noted that the Council Testing Standards for roadworthiness is that of an MOT. The remainder of the inspection is to ensure that the vehicle is both safe and comfortable and suitable for transporting members of the public in accordance with this policy and vehicle licence conditions. Any vehicle failing the test will be required to have a retest. If appropriate the licence will be suspended.

19.5 It will be the proprietor's responsibility to ensure that their licensed vehicle is roadworthy, maintained to the Council's standards and fit for purposes of hire and reward at all times.

## **20. Taximeters**

20.1 It is a legal requirement that taximeters must be fitted within hackney carriage vehicles, but optional for private hire vehicles.

20.2 Taximeters must be approved by the Council. Vehicles equipped with a taximeter must submit the meter for a periodic test.

20.3 Taximeters must be sealed, if approved by the Council, this may be done by the person undertaking the calibration and providing a certificate of calibration at the time of the vehicle examination.

## 21. Application Procedure

- 21.1 The application procedure for a vehicle licence is not legally prescribed but is a matter for each Council to determine. The Council require an application to be made on the specified application form available from the Licensing office or at [www.york.gov.uk/licensing](http://www.york.gov.uk/licensing).
- 21.2 Applications will normally be processed within 10 working days unless it has to be determined by Committee / Sub-Committee, in which case it will normally be determined within 20 working days. Applications will not, however, be determined until the Council has received all relevant documentation and the vehicle has passed the inspection.
- 21.3 The Council shall consider all applications on their own merits once it is satisfied that the appropriate criteria have been met and the application form and supporting documents are completed.
- 21.4 As part of the application the applicant(s) will submit a basic disclosure from the Disclosure and Barring Service (DBS), unless they are licensed with the Council as a hackney carriage and/or private hire driver.
- 21.5 Acceptable forms of proof of ownership are:
- a) Where a vehicle has been purchased for a car dealership (garage), a bill of sale which is dated, contains the full name and address of the seller, the purchaser and full description of the vehicle including make, model and registration number.
  - b) Where a vehicle licence proprietor has purchased a vehicle by way of private sale, the seller and purchaser shall sign a formal Statutory Declaration clearly identifying ownership of the vehicle. Such a declaration shall be given under oath in the presence of a solicitor.
  - c) A Hire Purchase Agreement which is dated, contains the details of the vehicle and the full details of the person(s) to who the agreement applies.
  - d) A lease agreement containing full details of the vehicle, the lessee and the lessor.

## **22. Executive Vehicles**

- 22.1 The 1976 Act gives local authorities the discretion to grant a proprietor an exemption from the requirements to display licence plates on their licensed private hire vehicle. Each application for an exemption is considered by the Taxi Licensing Manager on its own merits. The overriding consideration will be public safety.
- 22.2 If granted an Exemption Notice will be issued to the proprietor. The Exemption Notice shall be granted for a period of no more than one year. A copy of the Exemption Notice shall be carried in the vehicle at all times and shall be produced to an Authorised Officer on request.
- 22.3 The Exemption Notice is granted subject to the licensed private hire vehicle being operated in accordance with standard conditions and any additional conditions. Failure to comply with these conditions may result in the withdrawal of the Exemption Notice. The Council has developed a licensing regime for such vehicles, which is set out in Appendix 2, along with additional conditions.

## **23. Stretch Limousines & Novelty Vehicles**

- 23.1 The Council recognises the role of stretched limousines, their use generally includes all private hire work plus special occasions such as days at the races, stag and hen parties and school proms. The licensing regime for executive vehicles will apply.
- 23.2 Most stretched limousines are imported for commercial purposes and are required to have undertaken an Individual Vehicle Approval (IVA) test. The IVA Scheme is an inspection scheme for vehicles that are not approved to British and European Standards, and its purpose is to ensure that the vehicle meets modern safety standards and environmental standards before being used on public roads. When presented for IVA, the vehicle is produced with a declaration that it will never carry more than eight passengers. The importer must inform any person who may use it of this restriction. Any subsequent purchasers must also be informed of the restriction.
- 23.3 Any stretched limousines, which are offered for private hire, do require a

licence. Most stretched limousines are licensed by the DVSA due to their seating capacity. If an application is received by the Council to licence such a vehicle, it will be treated on its merits.

23.4 Novelty vehicles, which are offered for private hire, do require a licence. If an application is received by the Council to licence such a vehicle, it will be treated on its own merits.

## **24. Exempt Vehicles**

24.1 Vehicles that are used solely in connection with a funeral or are being wholly or mainly used by a person carrying on the business of a Funeral Director for the purpose of funerals, do not need to be licensed.

24.2 Vehicles that are used solely in connection with a wedding do not require a licence.

## **25. Security Measures**

25.1 The Department of Transport Best Practice Guidance recommends that licensing authorities look sympathetically on or even actively encourage the installation of security measures such as a screen between the driver and passengers or CCTV systems as a means of providing some protection for the vehicle.

25.2 The installation of CCTV in licensed vehicles must first be approved by the Council. The installation is voluntary, and all costs borne by the vehicle proprietor.

25.3 If CCTV is installed within a licensed vehicle, the vehicle licence proprietor must make sure the requirements of the Information Commission Office (ICO) and the Data Protection Act 2018 are met with regards to controlling the recordings. The Council has an approved list of CCTV installers that meet these requirements.

## **26. Environmental Considerations**

26.1 Taxi and private hire vehicles are an essential form of transport in the York area. Many people depend on such vehicles for trips when other forms of transport are unsuitable or unavailable; these persons include the

vulnerable and some schoolchildren who are likely to be more susceptible to poor air quality and respiratory illnesses. For the health and environmental reasons above, and because York has a legal duty to improve air quality, it is vital that emissions from licensed vehicles are reduced as far as practicable. It is therefore important that increased efforts are made to reduce emissions of toxic particulates and nitrogen dioxide, and also greenhouse gases that lead to climate change and contribute to flooding in York.

26.2 The DfT guidance asks licensing authorities to consider how their vehicle licensing policies can support any local environmental policies they may have adopted, bearing in mind the need to ensure that benefits outweigh costs (in whatever form). DfT suggest that local authorities may wish to consider setting vehicle emissions standards, perhaps by promoting cleaner fuels.

26.3 Only the following European Standards will be accepted for *new* private hire vehicle applications, and any subsequent replacement of these vehicles, and all replacement vehicles for both taxi and private hire:

- a petrol or diesel vehicle that is Euro VI or better and less than 10 years old.
- a ULEV\* petrol or diesel 'hybrid', or 'plug-in hybrid', electric vehicle.
- any wheelchair accessible vehicle (WAV) that is Euro VI or better. For the avoidance of doubt, as well as petrol and diesel vehicles that are Euro VI or better, this includes Euro VI hybrids / plug-in hybrids and all fully electric WAVs.\*\*

\*ULEVs are currently defined as having less than 75 grams of CO<sub>2</sub> per kilometre (g/km) from the tail pipe. The CO<sub>2</sub> count can be ascertained using the following website - <https://www.gov.uk/get-vehicle-information-from-dvla>.

\*\* A WAV is a vehicle constructed or converted specifically so that it can accommodate one or more person(s) seated in the wheelchair(s) when travelling on the road.

26.4 It will be for the applicant or the vehicle licence proprietor to demonstrate that the vehicle they wish to be licensed meets the appropriate European Standards as stated in paragraph 26.3 above.

- 26.5 Emissions from licensed vehicles could be reduced further by encouraging better maintenance of vehicles and by switching off engines when stationary or idling, particularly at ranks.
- 26.6 From (**date to be agreed via Committee**) a vehicle licence will only be renewed to vehicles meeting the requirements of paragraph 26.3 above.
- 26.7 The emission standards for taxis and private hire vehicles will be subject to review, considering the latest air quality monitoring results, to determine whether they are making sufficient progress towards achieving the health-based air quality objectives.
- 26.8 This policy is part of the Council's ambition to have an ultra-low emission taxi fleet in York that benefits people's health and creates a more pleasant environment. The Council will continue to seek opportunities to obtain further grant funding to enable taxi drivers to upgrade their licensed vehicles to ultra-low emission vehicles.
- 26.9 Following the recommendations of an unmet demand survey, undertaken in autumn 2021, and the non-renewal of three hackney carriage vehicle licences, on the 20 October 2022, the Council approved the grant of ten hackney carriage vehicle licences. Members determined that these vehicle licences will only be granted to:
- a fully electric wheelchair accessible vehicle; or
  - a plug-in electric petrol hybrid wheelchair accessible vehicle\*.
- \*These vehicles are purpose-built taxis and have CO2 emissions of less than 50g/km and can travel at least 112km (70miles) without any emissions. The vehicle must be black in colour. These vehicles are issued with vehicle licence numbers from 184 to 193.
- 26.10 If a hackney carriage vehicle licence becomes available, for example the licence is surrendered, revoked or not renewed, the Council will offer the licence to the person at the top of the hackney carriage vehicle licence waiting list, as this offer will be for the grant of a vehicle licence the vehicle to be licence must meet the requirements of paragraph 26.9.

## **27. Renewal of Licences**

- 27.1 Vehicle licence proprietors will be invited to renew their licence prior to the

expiry date. It is the licence holder's responsibility to ensure that the licence is renewed prior to its expiry.

- 27.2 The renewal application and all documentation required as part of the renewal process must be received prior to the expiry of the existing licence. The vehicle licence will not be renewed until all relevant documentation is received.
- 27.3 Vehicle licence proprietors will submit a basic disclosure from the DBS as part of the vehicle licence renewal process unless they are licensed with the Council as a hackney carriage and/or private hire driver.
- 27.4 Vehicle licence proprietors who fail to submit renewal applications and relevant documentation in accordance with paragraph 27.2 will be required to reapply as a new applicant.

## **28. Refusal to renew, Suspension and Revocation of Vehicle Licence**

- 28.2 As part of the renewal process and at any time during the duration of the licence, the Council can review if the vehicle is consider fit to be used as a licensed hackney carriage or private hire vehicle.
- 28.3 If the Council determine that the vehicle is not fit to be a licensed vehicle the application to renew will be refused, or the vehicle licence will be suspended or revoked.

## **29. Term of Licence**

- 29.1 Vehicle licences are valid for a maximum period of one year, or for such lesser period, specified in the licence as the Council thinks appropriate in the circumstances of the case.

## **Drivers**

### **30. Licences**

30.1 The Council issues driver's licences for private hire and hackney carriage drivers. The Council must be satisfied that driver applicants and licensed drivers are fit and proper persons to hold such licences.

30.2 Licences are issued subject to proof of eligibility:

- a) birth certificate;
- b) certificate of naturalisation – if born abroad but now a British citizen;
- c) immigration status and permission to work;
- d) driving licence;
- e) driving assessment (by a provider approved by the Council)
- f) safeguarding and knowledge/locality training;
- g) criminal records check;
- h) medical assessment.

### **31. Driving Experience**

31.1 A driver's licence cannot be granted to anyone who has not held a full driving licence issued in the UK, the European Community (EC) or one of the other countries in the European Economic Area (EEA) for at least 12 months. In addition, licensed drivers who hold an EC/EEA driving licence must register with the DVLA and provide proof of registration.

31.2 Applicants are required to have passed the driving assessment test, and if driving a wheelchair accessible vehicle, applicants are also required to have passed the wheelchair assessment/exercise. Applicants must produce the pass certificates.

## **32. Safeguarding and Knowledge / Locality Training**

### New Driver Applicants

- 32.1 In order to determine the fitness of a person to hold a licence, all applicants are required to undertake and pass training delivered by a training providers approved by the Council on local knowledge, regulatory framework, professional standards, safeguarding and equalities/disabilities. All applicants will also be required to pass an advanced taxi driving test and English comprehension test, delivered by providers approved by the Council. Applicants wishing to drive a wheelchair accessible vehicle will also need to pass a practical wheelchair test, delivered by providers approved by the Council. A driver licence will not be issued without the applicant first passing these training requirements. Further information can be found at Appendix 7.

### Licensed Drivers

- 32.2 In order to determine that a licensed driver remains a fit and proper person to hold a licence they are required to undertake refresher training every three years, to ensure that drivers remain up to date with current industry legislation and practice. The training will be delivered by training providers approved by the Council. Further information can be found at Appendix 7.

## **33. Determining the Suitability of Applicants and Licensees as Drivers in Taxi and Private Hire Licensing – Convictions and Disclosure and Barring Service Check (DBS)**

- 33.1 A criminal record check on a driver is an important safety measure. Enhanced Disclosure through the DBS is required as this disclosure includes details of both spent convictions, police cautions and intelligence by virtue of the Rehabilitation of Offenders Act 1974 (Exception) Order 1977.
- 33.2 The Rehabilitation of Offenders Act 1974 does not apply to applicants for hackney carriage or private hire driver licences. Applicants are required therefore to disclose all convictions, including those that would normally be regarded as spent.
- 33.3 The Councils policy with regards to ‘Determining the Suitability of

Applicants and Licensees as Drivers in Taxi and Private Hire Licensing' can be found at Appendix 8. This policy will be taken into consideration when determining the suitability of applicants and licensed drivers.

- 33.4 Before an initial application for a drivers' licence will be considered, the applicant must apply for an Enhanced Disclosure of criminal convictions through the Licensing Section of the Council. The application will not be determined until the results are received. DBS checks are not transferable, unless they have been carried out under the correct 'workforce' requirement, under the occupation as a taxi driver and are issued within six months of the licence application being submitted to the Council.
- 33.5 On receipt of an application for the grant of a drivers licence details of how to apply for a DBS will be provided. As part of the application proof of identity will be required. The applicant for a DBS will be sent the disclosure report to their home address, the Council does not receive a copy of the disclosure report, it is the responsibility of the applicant to produce the disclosure report to the Licensing Section, which will form part of the application.
- 33.6 All applicants for a new or renewed licence are required to provide details of all criminal, motoring and licensing convictions including fixed penalties, spent convictions and cautions. It is an offence to knowingly or recklessly make a false statement or to omit information required by the Council (Section 57, the 1976 Act).
- 33.7 Under Section 61(1) of the 1976 Act the Council has the power to suspend or revoke the licence of a hackney carriage or private hire driver:
- a) who since the grant of the licence has been convicted of an offence:
- involving dishonesty, indecency or violence; or
  - under the provisions of the Act of 1847 or Part II of the 1976 Act; or
- b) for any other reasonable cause.
- 33.8 Licensed drivers shall inform the Council, in writing, within 48 hours of any:
- convictions or finding of guilt (criminal or driving matter);
  - caution (issued by the Police or any other agency);
  - issue of a Magistrate's Court summons against them;
  - issue of a fixed penalty notice or notice of intended prosecution for any

matter;

- harassment or other form of warning or order within the criminal law including anti-social behaviour orders or similar; and
- their arrest for any offence, whether or not they are charged.

On receipt of this information the Council may have reasonable cause to issue a written warning, suspend the licence for a specified period or revoke the licence or take a decision to immediately revoke or suspend that licence.

33.9 Failure to declare convictions / cautions or information as detailed in paragraph 33.8 received during the lifetime of the licence could lead to the renewal applications being refused.

#### **34. Disclosure and Barring Service Update Service**

34.1 It is a requirement that licensed drivers subscribe to the DBS Update Service. The driver is required to keep the Update Service updated of personal details such as a change of name or address.

34.2 Information with regards to subscription to the Update Service will be supplied to new applicants as part of the applications process. Applications for the grant of a driver's licence may be refused if the applicant does not register with the Update Service.

34.3 Licensed drivers will be required to subscribe with the Update Service when they are next requested to complete a criminal record check. Applications for the renewal of a driver's licence may be refused, or a driver's licence may be suspended or revoked, if the licensed drivers does not subscribe to the Update Service.

34.4 Licensed drivers are required to evidence continuous registration with the Update Service to enable the Council to routinely check for new information every six months.

34.5 If a licensed driver is unable to register with the Update Service, they must notify the Council in writing. If required alternative DBS arrangements will be made. Licensed drivers not registered with the Update Service will be required to complete a DBS every six months. It is the responsibility of the licence holder to produce the disclosure report to the Licensing Section, driver licences may be suspended or revoked if a driver fails to produce

the disclosure within 10 working days of its receipt.

## **35. NR3S Register**

35.1 It is a requirement of the Taxis and Private Hire Vehicles (Safeguarding and Road Safety) Act 2022 that a national register is provided for licensing authorities to share relevant information with regards to individuals who have had a hackney carriage or private hire driver licence revoked, suspended or an application for one refused. Central Government appointed the National Anti-Fraud Network (NAFN) as the approved provider of the national register, which is known as the National Register of Taxi Licence Refusals, Revocations and Suspensions (NR3S).

35.2 The Council has registered with NAFN to use the NR3S database, therefore:

- Where a hackney carriage / private hire drive licence is revoked or suspended, or an application for one refused, the Council will automatically record this decision on NR3S.
- All applications for a new licence or licence renewal will automatically be checked on NR3S. If a search of NR3S indicates a match with an applicant, the Council will seek further information regarding the entry on the register from the authority who has recorded it. Any information received as a result of an NR3S search, will only be used in respect of the specific licence application and will not be retained beyond the determination of that application.

35.3 The information recorded on NR3S itself will be limited to:

- name
- date of birth
- address and contact details
- national insurance number
- driving licence number
- decision taken
- date of decision
- date decision effective

35.4 Information will be retained on NR3s for a period of 11 years.

35.5 This is a mandatory requirement for the grant or renewal of a hackney carriage and/or private hire driver's licence. The Council has published a Privacy Policy on the approach it will take to requests by other authorities for further information relating to entries on NR3S, and how information provided will be used. You can read that policy at <https://www.york.gov.uk/privacy/TaxiAndPrivateHireLicensing>.

## **36. Applicants who have resided or spent a period of time outside the United Kingdom (UK)**

36.1 In addition to a DBS Disclosure, where an applicant has resided outside of the UK, a criminal record check from the country/countries in which they have previously resided since the age of 18 years must be provided in English. This document is usually called a 'Certificate of Good Character' and may usually be obtained from the relevant embassy. Should an applicant be unable to provide a criminal record check, they must provide a separate signed declaration detailing the attempts made to obtain a check. The declaration must also state whether they have been found guilty or have been convicted or charged with any offence against the law in any country. This declaration must be signed in the presence of a solicitor and be duly countersigned and the form stamped by the solicitor.

36.2 A criminal records check (Certificate of Good Character) will be required if a licensed driver has been out of the country for three or more continuous months. The criminal records check will be required from each country visited.

## **37. Medical Examination**

37.1 Under Section 57 of the 1976 Act the Council requires an applicant for a hackney carriage and private hire drivers' licence to produce a certificate signed by a registered medical practitioner to the effect that they are physically fit to be a driver of such a vehicle. The Council requires the medical certificate upon an initial application for a licence. If the medical certificate produced is not satisfactory in any respect, the applicant may be required to provide additional medical evidence concerning their fitness and to submit to a further examination by a doctor selected by the Council.

37.2 In line with DfT recommendations, the Council applies the DVLA Group 2 (Group 2) driver standard for medical fitness for hackney carriage and

private hire drivers. This is a higher medical standard than that required of drivers of other motor vehicles. This is required due to the length of time the driver may spend at the wheel and the responsibility they have for the safety of their passengers and the public.

37.3 The medical practitioner must confirm that:

- a) they have examined the applicant;
- b) the applicant is registered with the practice; and /or
- c) they have had full access to the applicant's medical records;
- d) the medical examination was carried out to Group 2;
- e) they consider the applicant to be fit to act as the driver of a hackney carriage or private hire vehicle in accordance with this standard.

37.4 Licensed hackney carriage and private hire drivers shall submit a Group 2 standard medical certificate at the age of 45, 50, 55, 60 and 65. Annual medical certificates are required for all drivers over the age of 65. Drivers failing to have their medical within the required timeframe will have their licence suspended or revoked.

37.5 Licensed drivers shall submit details of any serious illness or prescription of any medication that may affect his/her ability to provide a public transport service to the Council within 14 days. At this time the Council may request that the driver undertakes a Group 2 standard medical.

37.6 Dependent on the medical history of the driver the Council may also request that the driver undertakes additional Group 2 standard medicals or further medical assessments.

37.7 If the Council is not satisfied as to the medical fitness of an applicant a hackney carriage or private hire driver's licence will not be granted. If the Council is not satisfied as to the medical fitness of a licensed driver there will be reasonable cause to suspend, revoke or refuse to renew the licence under Section 61 of the 1976 Act. This suspension may also be undertaken in accordance with Section 52 of the Road Safety Act 2006 on the grounds of public safety. This means that the suspension takes

immediate effect and although the driver may appeal, they are unable to drive pending the appeal.

### **38. New Applicants**

- 38.1 At the time that a driver's licence is granted, the DBS Disclosure Certificate, criminal record check from abroad (if applicable) and medical form must be dated within six months preceding the issue of the licence. It will be necessary for an applicant to undertake an additional DBS Disclosure, criminal record check from abroad and medical if any of these documents are outside of this timescale.
- 38.2 New applicants who have previously held a drivers' licence must complete the full application process unless they meet the following criteria:
- a) It is three months or less since their previous drivers' licence expired – new applicants will not be required to take the safeguarding and knowledge/locality training or the driving assessment.
  - b) It is three months or less since their previous drivers' licence expired – new applicants will not be required to provide DBS criminal records check if it is six months or less since the last DBS check was undertaken and they are still subscribed to the DBS Update Service.
  - c) It is three months or less since their previous drivers' licence expired – new applicants will not be required to provide a medical certificate if it is six months or less since the last medical was undertaken.
  - d) It is one year or less since their previous drivers' licence was suspended or revoked on medical grounds – new applicants will not be required to take the safeguarding and knowledge/locality training or the driving assessment.

New applicants who meet criteria b or c above will need to sign a declaration with regards to their fitness to hold a licence.

### **39. Application Procedure**

Licensing office or at [www.york.gov.uk/licensing](http://www.york.gov.uk/licensing).

- 39.2 Grant applications will normally be processed within 10 working days, unless it has to be determined by a Sub-Committee in which case it will be determined within 20 working days. Applications cannot be submitted to the Council until such time that the applicant has passed the driving assessment, the safeguarding and knowledge/locality training, a test relating to the understanding of the English language and completed the medical. The criminal records check will be completed as part of the application process with the Council.

A driver's fitness is also taken into consideration following the receipt of any complaints.
- 45.3 If the Council determine that the driver is no longer fit to hold a licence the application to renew will be refused, or the driver's licence will be suspended or revoked.

## Private Hire Operators

### 48. Requirements and Obligations

- 48.1 Any person who operates a private hire vehicle must apply to the Council for a private hire operator licence. The objective in licensing private hire operators is to ensure the protection of the public who will be using the operator's premises and the vehicles and drivers arranged through them.
- 48.2 A private hire vehicle may only be despatched to a customer by a private hire operator who holds an operator's licence. Such a licence permits the operator to make provision for the invitation or acceptance of bookings for a private hire vehicle.
- 48.3 A private hire operator must ensure that every private hire vehicle despatched by them is licensed and driven by a person who holds a private hire licence. It is a criminal offence to operate a private hire vehicle and/or driver without an operator's licence.
- 48.4 It is a condition of licence that the applicant operates from a premises within the controlled district of the Council.
- 48.5 Application for a private hire operator's licence must be made on the prescribed form, together with the appropriate fee. The Council will then decide whether the applicant is a fit and proper person to hold a licence.
- 48.6 Private hire operators must ensure that the artwork for door signs, which must be displayed on licensed private hire vehicles, is approved by the Council and displayed correctly.
- 48.7 Operators who hold Private Hire Operators licences in other local authority areas may sub-contract or otherwise make arrangements through technology (such as an app) for journeys to be fulfilled by that 'sister operator'. However, when undertaking journeys in the district of York i.e. which start and finish in the city, Operators are advised not to undermine this policy by using drivers who do not meet the suitability policy in respect of the number of points on their DVLA licence or having failed the safeguarding and knowledge test (unless they are booked to re-take it). Operators should also take steps to ensure that all drivers undertaking journeys which start and/or finish in York are familiar with the main routes

and destinations in the city without relying on a sat nav. This is to avoid unnecessarily prolonging journeys during periods of congestion (thereby adding to the congestion) or when the road network is altered for roadworks or events. Such drivers should also be aware of the rules relating to the city centre pedestrian zone at different times of the day.

48.8 It is reasonable for the public of York, when booking a private hire vehicle from a York licensed private hire operator, to expect that City of York Council has determined that the vehicle is suitable, and that the driver is a 'fit and proper' person. Therefore, for transparency and to facilitate customer choice, where a driver and vehicle licensed by another authority are dispatched, the customer should be notified in advance of the booking and offered the opportunity to cancel without charge. This also reduces the regulatory burden on the Council and the cost to the local taxi trade in dealing with complaints about drivers/vehicles who are licensed elsewhere.

#### **49. Disclosure and Barring Service Checks**

49.1 Applicants who are not already licensed as a private hire/hackney carriage driver will require a basic disclosure, criminal record check, from the DBS for the grant and renewal of an operator licence. On submission this disclosure must be less than one calendar month old.

49.2 The applicant's fitness to hold a licence will be taken into the consideration when an application is determined. Table A at Appendix 8 will be taken into consideration by the Council to determine fitness to hold a licence.

#### **50. Booking and Dispatch Staff**

50.1 Operators may outsource booking and dispatch functions to their staff, they cannot pass on the obligation to protect children and vulnerable adults. The operator must demonstrate to the Licensing Authority that all staff that have contact with the public and/or oversee the dispatching of vehicles do not pose a risk to the public.

50.2 Booking and dispatch staff have direct contact with users of private hire vehicles, they also determine which vehicle/driver to dispatch to undertaking a booking. Private hire operators shall keep a register of staff (including any person who dispatches a vehicle/driver on behalf of the

operator) who take booking and dispatches a vehicle/driver.

- 50.2 As a requirement of employment (including any person who dispatches a vehicle/driver on behalf of the operator), booking and dispatch staff shall complete a basic disclosure, criminal record check, from the DBS. The operator shall keep a record of the DBS in the register, evidencing that the operator has had sight of the basic DBS. If a member of dispatch staff leaves the employment of the operator and later returns to their employment, a new basic DBS certificate shall be required. The operator shall have a policy in place with regards to the frequency that basic DBS checks will be required. It is recommended that private hire operators take Table A at Appendix 8 into consideration when considering previous convictions of despatch staff.
- 50.3 Private hire operators who outsource booking and dispatch functions shall require evidence that comparable protections are applied by the company to which they outsource these functions.
- 50.4 Applicants for a private hire operator's licence and licensed operators shall provide the Council with their policy on employing ex-offenders in roles that would be entered into the register detailed at paragraph 50.1.

## **51. Conditions**

- 51.1 The Council has power to impose such conditions on a private hire operator's licence as it considers reasonably necessary and standard conditions are set out in Appendix 10. Additional conditions apply to situations in which Operators use so called 'sister operators' to complete bookings, and to large operators operating more than 99 vehicles.

## **52. Insurance**

- 52.1 Applicants are required to produce appropriate public liability insurance and employer liability insurance, if they have employees, annually.

## **53. Suitability of premises/ Planning Consent**

- 53.1 Applicants are required to obtain planning consent, where necessary, for the premises from which they intend to operate. The Planning Authority will be consulted as part of the application process and their comments

may be taken into consideration when determining whether the licence should be granted.

53.2 Private hire operators who allow vehicles to return to the licensed operator base must provide details of where vehicles will be parked when waiting for bookings.

## **54. Application Procedure**

54.1 The application procedure for an operator licence is not legally prescribed but is a matter for each Council to determine. The Council require an application to be made on the specified application form available from the Licensing office or at [www.york.gov.uk/licensing](http://www.york.gov.uk/licensing).

54.2 Applications will normally be processed within 10 working days unless, it has to be determined by a Sub-Committee in which case it will be determined within 20 working days. Applications will not, however, be determined until the Council has received all relevant documentation.

54.3 The Council shall consider all applications on their own merits once it is satisfied that the appropriate criteria have been met and the application form and supporting documents are completed.

## **55. Record Keeping**

55.1 Section 56 of the Local Government (Miscellaneous Provisions) Act 1976 requires Private Hire vehicle operators to keep records of the particulars of every booking invited or accepted, whether it is from the passenger or at the request of another operator.

55.2 Operators are required to keep records in the form of a log sheet or computer database detailing:

a) Bookings –

- the time and date of the request
- the passengers name
- the times and dates of the booking
- the pick-up point
- the destination
- the name and licence number of the driver

- the registration and licence number of the vehicle
  - the name of any individual taking the booking
  - the name of any individual who dispatches the vehicle/driver.
- b) Details of all hackney carriage/private hire vehicles operating from their office (vehicle make/model, colour, registration number and licence number).
- c) Details of all hackney carriage/private hire driver's operating from his/her office (name, address and licence number).
- d) Complaints received from the public.

Full details can be found in the Private Hire Operators' Licence Conditions at Appendix 10.

55.3 Records shall be kept and maintained at all times for the following time periods, and be available for inspection at the request of an Officer of the Council or Police:

- a) bookings, not less than six months
- b) vehicles and drivers, not less than 36 months
- c) complaints, not less than 36 months

## **56. Change of Home Address, Partners, Directors, Secretary or Chairperson**

56.1 The licensed operator will inform the Council within 14 days of any change of their home address, change of partners or directors of the company, or any change on the secretaryship or chairmanship thereof.

## **57. Material Change**

57.1 A private hire operator's licence is not transferable, and operators must notify the Council immediately in writing of any proposed changes of the person(s) authorised to operate under the terms of the licence, or if they intend to change business address. In both cases new applications will be required.

## **58. Business Name and Vehicle Side Plates**

- 58.1 Applications for operator's licences cannot use the same (or similar) name as any private hire firm currently operating within the district or any name previously used within the district and registered by the operator at Companies House.
- 58.2 Vehicle side plates and artwork must comply with the conditions relating to Private Hire Vehicles as detailed in Appendix 1, conditions 1 and 2.

## **59. Renewal of Licences**

- 59.1 Licensed operators will be invited to renew their licence prior to the expiry date. It is the licence holders' responsibility to ensure that the licence is renewed prior to its expiry.
- 59.2 The renewal application and all documentation required as part of the renewal process must be received four weeks prior to the expiry of an existing licence. This enables licence renewal application to be processed and the new licence issued prior to the expiry of the old one.
- 59.3 Licensed operators who fail to submit renewal applications and relevant documentation in accordance with paragraph 59.2 will be required to reapply as a new applicant.

## **60. Term of Licence**

- 60.1 In accordance with Section 55 of the 1976 Act, as amended by Section 10 of the Deregulation Act 2015, an operator's licence shall remain in force for five years or for such a lesser period, specified in the licence, as the Council thinks appropriate in the circumstances of the case.

## **61. Refusal to Renew, Suspension and Revocation of Operators Licence**

- 61.1 As part of the renewal process and at any time during the duration of the licence, the Council can review if the licensed operator is fit to hold a licence, especially following the receipt of a conviction or a notification of an arrest or charge. An operator's fitness is also taken into consideration following the receipt of any complaints.

61.2 If the Council has reason to believe that an operator is not fit to hold a licence the application to renew will be refused, or the operator's licence will be suspended or revoked.

61.3 Where the licensed operator has been served an immigration penalty or convicted of an immigration offence the licence shall be revoked.

## **62. Use of Passenger Carrying Vehicles (PCV) Licensed Drivers**

62.1 Passenger Carrying Vehicle (PCV) licensed drivers are subject to different checks from a licensed hackney carriage or private hire driver as the work normally undertaken does not present the same risk to passengers. The public are entitled to expect when making a booking with a private hire operator that they will receive a licensed private hire vehicle and driver. The use of a driver who holds a PCV licence and the use of a Passenger Carrying Vehicle (PCV) such as a minibus, to undertake a private hire vehicle booking is not permitted without the consent of the booker.

62.2 Where a private hire vehicle is unsuitable, for example where a larger vehicle is needed because more than eight passenger seats are required or to accommodate luggage, the booker should be informed that a PCV is necessary, and that a PCV licensed driver will be used who is subject to different checks and not required to have an enhanced DBS check.

## Fares

### **63. General**

- 62.1 The Council has the power to set hackney carriage fares for the journeys within their area. Fares, set by the Council, are a maximum and can be negotiated downwards by the hirer. This may be particularly useful to avoid congestion.
- 63.2 The Council will review the table of fares when requested by the Hackney Carriage Trade. All Associations acting on behalf of the hackney carriage trade must agree to any changes to fares before making the request to the Council. When determining the level of fares consideration will be given to what is reasonable to expect the travelling public to pay as well as the need to give the drivers an incentive to provide a service at all times it is needed. Any requests to review the table of fares may be referred to Committee for consideration prior to advertising the variation.
- 63.3 A notice of any variations to the maximum fare will be advertised in a local newspaper circulated in York with a date set 14 days from the publication for the making of objections to the proposed variation. If no objections are received the fare variation will have effect on a day specified at the end of the 14 day consultation period. If any objections are received the matter may be referred to Committee for consideration and a further implementation date will be set.
- 63.4 The Council is not able to set fares for private hire vehicles. It is a matter of agreement between the hirer and operator at the time of booking and the operator should make this clear. When a hackney carriage vehicle is used for private hire services the fare charged cannot exceed that which would be charged under the table of fares applicable to hackney carriages.
- 63.5 When a journey ends outside of the Council's area a fare greater than that shown on the meter may be charged but only if an agreement has been made with the hirer in advance. In the absence of such an agreement, only the metered fare can be charged. Failure to comply is an offence.
- 63.6 The Council encourages licensed drivers to provide alternative fare payment methods for customers, for example the use of PDQ or POS machines, so that customers can make credit/debit card payments.

## **64. Table of Fares**

- 64.1 A table of fares will be provided to each hackney carriage licence holder, which must be displayed in each vehicle so that it is easily visible to all hirers.
- 64.2 Private hire operators that use licensed vehicles fitted with a fare meter will provide the Council with a current table of fares. This table must also be displayed in each private hire vehicle so that it is easily visible to all hirers.

## **65. Receipts**

- 65.1 A driver must, if requested by the hirer, provide a written receipt for the fare paid.

## **66. Overcharging**

- 66.1 All meters must be calibrated to the correct fare scale. It is an offence for the driver to demand more than the fare on the meter.

## **Fees**

### **67. General**

- 67.1 The legislation provides that the fees charged should be sufficient to cover the costs of inspecting the vehicles, providing hackney carriage stands and administering the control and supervision of hackney carriages and private hire vehicles.
- 67.2 The current fees payable for the grant and renewal of hackney carriage and private hire licences are available from the Licensing Section and the Council's website.

### **68. Variations to Fee Structures**

- 68.1 The fee structure is reviewed annually as part of the budgetary process. Notice of the current scale of fees will be supplied to new applicants at the time of application.
- 68.2 A notice of any variation to the maximum fees in respect of vehicles and operators will be advertised by the Council in a local newspaper circulating in the district, with a date set 28 days from the publication for making objections to the variation of fees.
- 68.3 If no objections are received the fee variation will have immediate effect at the end of the 28 day consultation period, or at a later date as indicated by the Council. If objections are received the matter will be referred to Committee for consideration and a future implementation date set, which will not be later than two months after the initial date on which the new fee shall come into force, with or without modification after considering the objections.

### **69. Payments**

- 69.1 Payments can be made by credit or debit card over the phone or on-line, by Bacs and by cheque made payable to City of York Council are also acceptable. If a payment is returned due to insufficient funds an administration charge shall be levied against the applicant.
- 69.2 Only credit or debit card payments will be accepted in relation to the fee

that applies to a disclosure and barring service check.

## **70. Payment Refunds**

- 70.1 No refund will be given in respect of an unused portion of a licence, unless the Council believes there are appropriate circumstances, this will be determined on a case by case basis, for example a refund may be given to a licence holders family if the licence holders dies during the term of the licence, or a refund may be given to the holder of a drivers licence if the driver is no longer able to hold a licence on medical grounds. A refund will not be given if the remaining term of the licence is 12 months or less.

## **Enforcement**

### **71. Enforcement**

71.1 Effective enforcement is needed to meet the requirements of this Policy, for the safety of the travelling public, other road users and to support residents and businesses. Where necessary, enforcement action will be taken in accordance with the principles of the Council's Enforcement Policy.

### **72. Joint Authorisation of Enforcement Officers**

72.1 The West Yorkshire (Bradford, Calderdale, Kirklees, Leeds and Wakefield) and York licensing authorities have an agreement in place to jointly authorise enforcement officers, so that compliance and enforcement action can be taken against licence holders from each of the authority areas. Licence holders must comply with requests from officers of those authorities as if they were requests from a City of York Council Licensing officer.

72.2 The Council will seek similar arrangements with other local authorities.

### **73. Roadside Checks**

73.1 Council officers will undertake roadside checks of licensed vehicles and drivers. If a vehicle and/or driver fails the check their licence will be suspended. The suspension will not be lifted until such time that all matters have been rectified. For the suspension to be lifted the driver with vehicle will have to attend the Council's Eco Depot for re-inspection.

### **74. Joint Working with the Police and/or DVSA**

74.1 The Council will work jointly with the Police and/or DVSA to carry out spot checks on licensed vehicles and drivers. The check may be undertaken at the roadside or at the Vehicle Workshop at the Council's Eco Depot.

74.2 Vehicles and/or drivers failing the check will have their vehicle and/or drivers licence suspended. The vehicle licence suspension will not be lifted until all matters have been rectified and the vehicle is presented to the Vehicle Workshop at the Council's Eco Depot for re-inspection. The

driver licence suspension will not be lifted until such time that the driver has attended the Council's Eco Depot and officers are satisfied that the driver is "fit and proper".

- i) Any screen shall be no larger than 15".
- j) All equipment must be installed in the driver's compartment and should not be visible from the driver position. The screen may be installed in the driver and front passenger seat headrests, or other suitable location agreed by the licensing authority.
- k) The installation must not be such as to weaken the structure or any other component part of the vehicle or interfere with the integrity of the manufacturer's original equipment.
- l) The design must be discreet and complement the interior furnishing of the vehicle.
- m) The system must include safeguards to maintain the integrity of the system and prevent the display of unapproved material.
- n) Passengers must be able to control the volume level, including turning the sound off. The driver must have overall control of the volume to make sure it does not distract them while driving. The sound should be automatically muted when the intercom is operated.

- p) A notice should be displayed within prominent view and physical reach of all passenger seats giving instructions to passengers as to adjusting the volume and turning the screen off. The notice shall be in a suitable format and design for visually impaired people and visible in low light conditions.

- q) The mute/volume control must be accessible from the nearside and offside passenger seats.
- r) Once activated the mute should continue without further activation by the passenger until the passenger leaves the vehicle.
- s) All equipment must be protected from the elements, secure from tampering and located such as to have no impact on the seating and luggage carrying capacity of the vehicle.

6) **Compliance with these Conditions**

Vehicles displaying advertising without approval contravene the vehicle licence conditions and in the case of hackney carriages, the byelaws, and if prosecuted would be liable to a fine of up to £500. The vehicle licence could also be suspended until such time as the material has been removed from the vehicle (subject to the right of appeal to the Magistrates' Court). A vehicle licence will also be suspended if artwork is incomplete due to bodywork repairs.

The licensing office will exercise this authority in the interests of the citizens and visitors to York.

- 5.2 The Council firmly believes that safe, suitable and professional trained hackney carriage and private hire drivers are an asset to the region as a whole. We wish to set standards on a par or above that of our neighbouring regions to ensure the safety of the travelling public within our region.

## Appendix 8

### **A Policy on Determining the Suitability of Applicants and Licensees as Drivers in Taxi & Private Hire Licensing**

#### 1. Introduction

- 1.1 The Council recognises that the role of hackney carriage and private hire drivers is a professional one. Hackney carriage and private hire drivers transport our most vulnerable persons and are often the first point of contact for visitors to each authority.
- 1.2 The reason for this Policy is to ensure that the travelling public within the authority area can be confident that the drivers licensed are suitable for this role.
- 1.3 The overriding requirement of the Council when carrying out this function is the protection of the public and others who use (or can be affected by) hackney carriage and private hire services. The aim of this Policy is to ensure that public safety is not compromised.
- 1.4 The Council must ensure that applicants/licence holders are and remain fit and proper to hold a licence. This Policy will apply to all new applicant and to existing licensees on renewal. This requirement is contained within Sections 51 & 59 of the Local Government Miscellaneous Provisions Act 1976.
- 1.5 This Policy categorises the types of issues including, crime and driving convictions, that form part of the “fit & proper” test to facilitate the assessment of the potential risk to the public. As part of this assessment the Council is concerned to ensure that:
  - An individual does not pose a threat to the public.
  - The Council’s obligations to safeguard children and vulnerable adults are met.
  - The public are protected from dishonest persons.
- 1.6 The standards of safety and suitability are not set as a base minimum. They are set high to give the public the assurance it requires when using taxi services. The Council does not have to strike a balance between the

driver's right to work and the public's right to protection. The public are entitled to be protected. This means that the Council is entitled and bound to treat the safety of the public as the paramount consideration.

- 1.7 Taxis are used by almost everyone, but they are used regularly by particularly vulnerable groups: children; the elderly; disabled people; and the intoxicated. A taxi driver has significant power over a passenger who places themselves, and their personal safety, in the driver's hands.
- 1.8 As part of the assessment referred to in paragraph 4 above the Council can consider convictions and cautions but also other outcomes of actions taken by the police, other agencies and the Civil Courts.
- 1.9 Reference to convictions in this Policy also includes cautions, warnings, reprimands, all forms of fixed penalty notices, restrictive type orders and any other relevant information. These must be reported to the Council in the format and timescales stated in the relevant Policy. In addition any circumstances relating to the licensee is potentially relevant if it is relevant to their safety and suitability to hold a licence.
- 1.10 Matters which have not resulted in a criminal conviction (whether as a result of an acquittal, a conviction being quashed, a decision not to prosecute or an investigation which is continuing where the individual has been bailed) will be taken into account by the Council. In addition, complaints where there was no Police involvement will also be considered.
- 1.11 In the case of a new applicant who has been charged with any offences and is awaiting trial, the determination will be deferred until the trial has been completed or the charges withdrawn.
- 1.12 In all cases, the Council will consider a conviction or behaviour and what weight should be attached to it, and each case will be decided on its own merits and in line with this Policy.
- 1.13 The licensing process places a duty on the Council to protect the public. Therefore it is essential that those seeking a living as a driver meet the required standards. As previous offending and other behaviour can be considered as a predictor in determining future behaviour, it is important that the Council considers all relevant factors including previous

convictions, cautions, complaints, failures to comply with licence conditions, and the time elapsed since these were committed.

## 2. Applying the Guidance

- 2.1 One of the purposes of this Policy is to provide guidance to an applicant or existing licence holder on the criteria to be taken into account by the Council when determining whether or not an applicant, or an existing licensee on renewal, is fit & proper to hold a hackney carriage or private hire driver's licence.
- 2.2 When determining whether or not a person is "fit & proper" to become or remain a licensed driver each case will be decided on its own merits and the Council shall only depart from this Policy in exceptional circumstances.
- 2.3 There must be clear and compelling reasons for the Council to depart from this Policy. The otherwise good character and driving record of the applicant or licence holder will not ordinarily be considered exceptional circumstances nor will the impact of losing (or not being granted) a licence on the applicant and/or his family.
- 2.4 The granting of a licence places an individual in a unique position of trust, and they are expected to act with integrity and demonstrate conduct befitting of the trust placed in them. For this reason, whilst it is possible for an applicant or existing licence holder to have convictions that individually comply with the Policy, the overall offending history and conduct of the applicant/licence holder will be considered. Appropriate weight will be applied where a series of convictions/incidents have been incurred over a period of time.
- 2.5 The Policy will also be applied if any additional issue arises that would call into question a person's suitability to continue to hold a licence. If an existing licence holder's conduct falls short of the "fit and proper" standard of behaviour at any time, their licence will be revoked.
- 2.6 Where a licence would normally be granted after an elapsed period, there may be circumstances where the elapsed period will be extended.
- 2.7 Any foreign offence disclosed by the applicant/licence holder or revealed

on an enhanced Disclosure & Barring Service Disclosure will be dealt with in line with this Policy.

2.8 Any concerns, issues, incidents or convictions/offences not covered by this Policy will not prevent the Council from taking them into account.

### 3. Disclosure and Barring Service

3.1 Applicants and licensed drivers must comply with the requirements of section 34 of this Policy with regards to DBS checks and the Update Service.

3.2 Any information contained in the Enhanced DBS Certificate that identifies an individual as not suitable to work with children or vulnerable adults will normally be refused.

3.3 The Council is also entitled to use other records and information including any complaints history that may be available to it in determining applications or an entitlement to continue holding a licence. This may include information held by the Council or other Councils and information disclosed by the Police under the Home Office scheme for reporting offences committed by notifiable occupations.

3.4 In determining safety and suitability the Council is entitled to take into account all matters concerning that applicant or licensee. This includes not only their behaviour whilst working in the hackney carriage or private hire trade, but also their entire character including, but not limited to, their attitude and temperament.

3.5 Any applicant who has resided outside the UK for any period longer than 6 months within the preceding 3 years must comply with the requirements of sections 34 and 36 of this Policy with regards to DBS checks, the Update Service and certificates of good conduct.

3.6 It is the responsibility of the applicant/licence holder to satisfy the Council that they are a “fit and proper person” to hold a licence. Therefore the applicant/licence holder must ensure that all convictions, cautions, warnings, reprimands, fixed penalties, arrests and summonses are disclosed to the Council, including any incurred outside the UK. A failure to report such convictions, cautions, warnings, reprimands, fixed

penalties, arrests and summonses will be given significant weighting.

3.7 Once a licence has been granted there is a continuing requirement on the part of a licensee to maintain their safety and suitability to meet the “fit and proper” test. The Council has the powers to take action against licence holders and any behaviour, incidents, convictions or other actions on the part of the licensee which would have prevented them from being granted a licence will lead to the licence being revoked.

3.8 Any dishonesty by any applicant or other person acting on the applicant’s behalf which occurs in any part of the application process will result in a licence being refused, or if already granted, revoked and may result in prosecution.

3.9 Under the Local Government (Miscellaneous Provisions) Act 1976 section 57, the Council has the power to require an applicant to provide:

“such information as they may reasonably consider necessary to enable them to determine whether the licence should be granted and whether conditions should be attached to such licence.”

The provision of this information can help to satisfy the Council that a person has the skills and competencies to be a professional driver to hold a licence. However, the concepts of “fit and proper” and “safety and suitability” go beyond this. There is the character of the person to be considered as well.

3.10 The character of the applicant in its entirety is the paramount consideration when considering whether they should be licensed. The Council is not imposing an additional punishment in relation to previous convictions or behaviours. The information available to them is used to make an informed decision as to whether or not the applicant is a safe and suitable person.

3.11 The fact that an offence was not committed when the applicant was driving a taxi or when passengers were aboard is irrelevant. Speeding, drink driving and bald tyres are all dangerous, irrespective of the situation. Violence is always serious. A person who has a propensity to violence has that potential in any situation. Sexual offences are always serious. A person who has in the past abused their position (whatever

that may have been) to assault another sexually has demonstrated completely unacceptable standards of behaviour.

- 3.12 Licensees are expected to demonstrate appropriate professional conduct at all times, whether in the context of their work or otherwise. Licensees should be courteous, avoid confrontation, not be abusive or exhibit prejudice in any way. Licensees are expected to act with integrity and demonstrate conduct befitting the trust that is placed in them.
- 3.13 There are those who seek to take advantage of vulnerable people by providing services they are not entitled to provide; for example, by plying for hire in an area where they are not entitled to do so. The Council expects licensees to be vigilant of such behaviour and to report any concerns to the Police and the relevant licensing authority. Passengers must feel able to check that the person offering a service is entitled to do so. Licensees must be willing to demonstrate that they are entitled to provide the service offered by, for example, showing their badge. Any applicant or licensee who does not comply with the requirements set out in this paragraph will not meet the “fit and proper” test.

#### 4. Criminal and Driving Convictions

- 4.1 The Council considers that a period of time must elapse after a crime before a person can no longer be considered to be at risk of re-offending. The timescales set out in Table A are to reduce the risk to the public to an acceptable level.
- 4.2 In relation to single convictions Table A sets out the time periods that should elapse following completion of the sentence (or the date of conviction if a fine was imposed) before a licence will be granted.
- 4.3 The Council will look at the entirety of the individual and in some cases the suitability will not be determined simply by a specified period of time having elapsed following a conviction or the completion of a sentence. The time periods are a relevant and weighty consideration but they are not the only determining factor.
- 4.4 In addition to the nature of the offence or other behaviour, the Council will also consider the quantity of matters and the period of time over which they were committed. Patterns of repeated unacceptable or criminal

behaviour are likely to cause greater concern than isolated occurrences as such patterns can demonstrate a propensity for such behaviour or offending.

- 4.5 This Policy does not replace the Council's duty to refuse to grant a licence where they are not satisfied that the applicant or licensee is a fit and proper person. Where a situation is not covered by this Policy the Council must consider the matter from first principles and determine the fitness of the individual.
- 4.6 Once a licence has been granted there is a continuing requirement on the part of the licensee to maintain their safety and suitability to meet the "fit and proper" test.
- 4.7 Some offences on their own are serious enough for a licence not to be granted and these identified Table A. In the case of an existing licence "refused" in the Table means "revoked".
- 4.8 Applicants and licensees should be aware that where they have been convicted of a crime which has resulted in the death of another person or was intended to cause the death or serious injury of another person they will not be licensed.
- 4.9 Where an applicant or licensee has been convicted of a crime involving, related to, or has any connection with abuse, exploitation, use or treatment of another individual irrespective of whether the victim or victims were adults or children, they will not be licensed. This includes slavery, child sexual exploitation, grooming, psychological or financial abuse.
- 4.10 The Council will not grant a licence to any applicant who is currently on the Sex Offenders Register or on any "barred" list. Existing licensees who are placed on the Sex Offenders Register or on any "barred" list will have their licence revoked.
- 4.11 Convictions for attempt or conspiracy will be regarded as convictions for the substantive crime. A caution is regarded in exactly the same way as a conviction. Fixed penalties and community resolutions will also be considered in the same way as convictions.

- 4.12 Road Safety is a major priority to the Council. A taxi driver has direct responsibility for the safety of their passengers, direct responsibility for the safety of other road users and significant control over passengers who are in their vehicle. As those passengers may be alone, and may also be vulnerable, any driving convictions or unacceptable behaviour whilst driving will weigh heavily against a licence being granted or retained.
- 4.13 Taxi drivers are professional drivers charged with the responsibility of carrying the public. Any motoring convictions demonstrate a lack of professionalism and will be considered seriously. Whilst it is accepted that offences can be committed unintentionally, and a single occurrence of a minor traffic offence would not prohibit the grant of a licence or may not result in action taken against an existing licence, subsequent convictions would indicate that the licensee does not take their professional responsibilities seriously and is therefore not a safe and suitable person to be granted or retain a licence.

## 5. Decision and Right of Appeal

- 5.1 Where the Council is minded to refuse an application or suspend or revoke an existing licence in line with this Policy the applicant or existing licence holder will be informed and be given an opportunity to provide any additional written evidence in support of their application or retention of their licence.
- 5.2 The Council, at its absolute discretion, may determine to meet with the applicant or existing licence holder for the purpose of clarifying information provided or received. The applicant can be accompanied by one individual at the meeting who is not permitted to make comment or enter into any part of the discussion.
- 5.3 The Applicant or existing licence holder will be notified in writing of the Council's final decision within 14 days of completion of the procedures set out in paragraphs 43 and/or 44 above.
- 5.4 Any person whose application is refused or licence suspended or revoked by the Council has a right of appeal to the Magistrates' Court. An Appeal must be lodged within 21 days of the decision at the appropriate Magistrates' Court. Appeal rights are contained in Section 77

of the Local Government (Miscellaneous Provisions) Act 1976 (Part II) and Section 300 of the Public Health Act 1936.
