

# **Bus Accessibility Tracker**

**Duncan McIntyre**

iTravel Programme Manager

# Background

- Enhanced Partnership Forum meetings – enquiries often made about improving disabled people's bus access. But there was no simple way for the partnership to provide updates.
- Task & Finish Group set up to resolve this
- The group set up a tracker, listing issues and progress

# Bus Accessibility Tracker

- A document to show progress made on issues relating to access to bus services for disabled people
- Lists the issues
- Lists the workstreams to resolve those issues
- Shows progress of those workstreams
- Updated monthly

# Bus Accessibility Tracker

- Mainly for updating the public – not a programme management tool
- Doesn't guarantee that every issue on the list will be resolved
- But the tracker should enable efficient and informed discussions

# Headlines

- The first e-ink display has been installed in Elvington. 6 more planned (so far)
- Mobility Scooter permit system now explained on an iTravel webpage
- Council talking to bus operators to understand their driver training and opportunities for enhancements
- Investigating free taxi rides for access refusals

# Park & Ride

- ‘Changing places toilets’ to be introduced at Rawcliffe and Grimston Bar
- Will improve parking spaces for disabled people
- A report will go to Transport Exec 7th October to get some funding. Then design work take place, which YAF can be consulted on

# Bus stop figures

<b>Improvement</b>	<b>Installed</b>	<b>Planned</b>	<b>Total</b>
Bus Shelter	24	7	31
Bus Shelter Lighting	6	7	13
Bus Shelter Seating	4	0	4
Real Time Display	138	57	195
Kerb Improvement	19	15	34
Other Scheme	1	1	2

# Bus stop figures

- Of the 190 real time displays – only 5 don't have audio

# Elvington e-ink display
