

REQUEST FOR SUSPENSION OF A BUS STOP / SITING OF A TEMPORARY STOP

This form should be used to request the temporary suspension of an existing bus stop on the adopted highway in the City of York and, if necessary, the provision of a temporary bus stop. It should be used when suspension is necessary due to the proximity of works within or adjacent to the adopted highway. The form should not be used to request the permanent relocation of a stop, including additional facilities, such as shelters, Kassel kerbs and seating. Applicants are advised to discuss the need for a replacement facility with City of York Council before submitting this form as sometimes charges will be unnecessary or there may be no suitable alternative location. A separate form should be used for each bus stop affected.

All communication regarding this request must be via City of York Council (the Council) or its officers.

The Council will invoice the applicant on receipt of an acceptable request. To ensure that you have the latest request form, please download it from the Council's website.

All prices on this form are correct at the time of publication. All prices on this form are outside of scope for VAT purposes.

All bus stop equipment remains the property of the Council.

Please return your completed form to City of York Council either by email (a signed copy is still required and the Council will only process an email-only request at its own discretion where there is an urgent need), post or fax.

The Council will charge an additional fee for each time the current stop pole (including flag and any timetable case attached) is re-sited if more than one temporary location is needed due to the phasing of works.

The Council will charge an additional fee of up to £179 for damage to or unauthorised removal of a temporary stop.

REQUEST FOR TEMPORARY BUS STOP WORKS

Details of organisation requesting work: (invoices will be sent to this address)

Organisation:		Contact Name:	
Address:		Job Title:
