

<b>Site, Para etc.</b>	<b>Comments</b>	<b>Ref.</b>	<b>Name (where business or organisation)</b>
<b>Sustainability Appraisal Technical Note</b>	<p>Comment - The further sites (including extensions to existing sites) have not yet been subject to further appraisal in the SA and we advise that this appraisal is carried out as soon as possible to inform the selection of preferred sites to be taken forward to the submission stage of the plan. The current SA Technical Note only assesses non-strategic sites. Without the full SA of the strategic sites and transport allocation it would be premature for Natural England to advise your authority on those allocations where significant effects to nationally protected nature conservation sites are likely. The SA must examine the likely significant environmental effects of the plan, including its effects on SSSIs and reasonable alternatives taking into account the objectives of the plan.</p>	2/18846	Natural England (Yorkshire and Northern Lincolnshire)
	<p>Support – note the Technical Officers comment and look forward to its inclusion in the final submission.</p>	71/19004	Nether Poppleton Parish Council
	<p>Comment – Parish Council believes that the matrix supplied in this appendix is helpful in showing how criteria scores were applied to the various sites. This is a better arrangement than the need to search CYC’s website for a similar document in the <u>June/July 2013 consultation</u>.</p>	77/18882	Strensall with Towthorpe Parish Council
	<p>Support – note the Technical Officers comment and look forward to its inclusion in the final submission.</p>	78/19042	Upper Poppleton Parish Council
