

ID Ref	Q1: Thinking about the Local Plan as a whole, to what extent do you support the Labour Council's plans for over 16,000 houses on York's greenbelt? (Non FSC Comment)	Q2: Do you agree with us that the overall scale of development Labour are proposing is unsustainable and is likely to outpace investment in infrastructure? (Non FSC Comment)	Q3: Do you agree with us that Labour's Local Plan is inappropriate for a historic cathedral City like York? (Non FSC Comment)	Q4: Give us your thoughts on the Local Plan proposals as a whole. (Non FSC Comment)	Q5: Turning to the recent Local Plan 'Further Site' proposals in your area, to what extent do you agree with the Council's decision to increase the overall size of the proposed Metcalfe Lane Development? (Site Reference ST7)	Q6: Do you agree that the addition of 85 acres of 'strategic green space' is a largely superficial change that will not affect the overall impact of this development on the existing community? (Site Reference ST7)	Q7: Do you agree with us that the Council should not 'safeguard' land for future development if it is not required to do so? (Non FSC comment)	Q8: Do you agree with us that the Council should not allocate land for wind and solar farms if it is not required to do so? (Non FSC Comment)	Q9: Give us your thoughts on the Local Plan 'Further Sites' proposals in your area. (FSC General Comments)	Any further issues of concern? (FSC General Comments)	
11222	Strongly Opposed	Yes	Yes		Strongly Disagree	No	Yes	Yes	Use Brownfield, not Greenfield land.	No more HMOs in Osbaldwick, there are far too many and they are still being accepted.	
11223	Opposed	Yes	Yes	No building should be taking place on greenbelt land! Otherwise there will be no greenbelt	Strongly Disagree	Yes	Yes	Don't Know	No extensions should be granted to the travellers' site in Osbaldwick	Too much development will make residents vulnerable to flooding (even more than they may be already). In Years to come development must be sustainable and immigration managed better.	
11225	Strongly Opposed	Yes	Yes		Strongly Disagree	Yes	Yes	Yes	Greenbelt land should remain just that.		
5233	Strongly Opposed	Yes	Yes	York is becoming a large open sprawl of concrete spreading from the city centre outwards. Most of the massive proposed development is concentrated in one area thus providing access to A64 from our ever growing population of commuters	Strongly Disagree	No	Yes	Yes	Vandalism on a large scale with no consideration to the long term impact on wildlife and their habitat- animals, insects, birds, trees, plants have an equal right to be on this planet as do humans - unfortunately there is no end in sight to the path of human greed, selfishness and mass destruction.	An example of mass destruction can be viewed at the new development known as Derwenthorpe. Its a total disaster especially to the wildlife that lived there before the houses began to be built. My questions to those responsible for this mess are endless. I am still in disbelief that this really stupid plan was ever given the go ahead there needs to be a Stop to all such schemes going on regardless of local residents concerns and knowledge of this area.	
11226										Still need for a referendum, to control the influx of migrants from EU countries, the services health, schooling, and housing are over stretched.	No other comments noted
11227	Opposed	Yes	Yes		Strongly Disagree	Yes	Don't Know	Don't Know		Worry about student houses taking over in Osbaldwick. Student cars all over the streets and lots of noise by drunken returning home late at night	
11228	Strongly Opposed	Yes	Yes	More building will only increase traffic in these areas. We are already overburdened with traffic, why does York have to expand so much. We are a small historic town. Lets keep it that way ( York is being ruined now)	Strongly Disagree	No	Yes	Yes	If allowed more building to the east of Osbaldwick, will make us just a suburb of York. We need to keep what is left of our village status.	Concerns on EU membership. Other concern. All house lets i.e.: student, should pay council tax or be classed as a business and a business rate applied.	

11229	Strongly Opposed	Yes	Yes	The council can leave any green space alone. It is all regarded as a potential building site. York is a small city that they seem to want to make into a giant one, engulfing all the villages. They weren't interested that they left Osbaldwick with no open space due to the building on Metcalfe Lane Fields.	Strongly Disagree	Yes	Yes	Don't Know	Land East of Metcalfe Lane was said to be too wet to build on. Now it is proposed that an even larger development than originally will be considered. There is no thought what so ever of local people or wildlife habitat.		
11230	Strongly Opposed	Yes	Yes	Local area problems which exist now should be rectified before using a crystal ball at this point in time to forecast the need (or extent of need) for housing requirements in the future.	Strongly Disagree	Yes	Yes	Yes	Infrastructure is already stretched to deal with existing housing issues and further building is likely to cause problems.	National EU concerns	
11231	Strongly Opposed	Yes	Yes		Strongly Disagree	Don't Know		Yes	What areas of land remain, should be kept for agriculture we don't need extra houses or immigrants.	Sorry to loose B&Q. We have more than enough food shops.	
11232	Opposed	Yes	Yes	Do not support labour councils local plan	Strongly Agree	Don't Know	Yes	Yes			
11233	Strongly Opposed	Yes	Yes	I feel there may be an ulterior motive in all the labour council's proposals, none of them will benefit the people in our area (Osbaldwick) which is starting to feel more and more as if they are trying to force us out of our homes. Why??	Strongly Disagree	No	No		When are the council going to realise we brought our homes for the tranquillity that abounded Osbaldwick and area. This council in particular are fast approaching a 'Hitler' type of local government. Dangerous		
11234	Strongly Opposed	Yes	Yes		Strongly Disagree	No	Yes	Yes			
11235	Strongly Opposed	Yes	Yes	If the Conservatives with the next local elections what would their local plan be? Would they be committed to building on green field sites and building similar number of houses?	Strongly Disagree	Yes	Yes			Wind farms NO Solar Yes	
11236	Don't Know	Don't Know	Don't Know		Don't Know	Don't Know	Don't Know	Don't Know
