## Adding Citrix to your Windows device

To connect to CYC from a non-CYC device you will need to download and install Citrix Workspace.

**Step 1: Download** the installer from the ICT Portal **Step 2: Double click** the download to begin the installation

Step 3: Click Continue

Step 4: Check the "I agree" box and click continue

Citrix Workspace			×
Add-on(s)			
Citrix plugins and services (1/2)		1	
Start App Protection after installation (			
Enable Single Sign-on			
Third party plugins (1/3)			
Install Microsoft Teams VDI Plugin (1)			
Install	Cano	cel	

Step 5: Leave default settings and click install

Step 6: Click Finish

**Step 7:** Close any additional windows, login prompt is not required.

You should now be able to access Citrix via navigating to <u>https://myapps.york.gov.uk/</u> on your web browser.

Note: If you have an older version of Citrix Workspace this may still work but if not then please upgrade to the latest version.
