**Subject:** Re: Strensall with Towthorpe Neighbourhood Plan – City of York Council

This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Good evening

Please can you correct a mistake on all of the plans

All plans are marked with CA2 permissive footpath incorrectly.

This is all private land with no current permission or right of way.

[REDACTED], i am aware of a DMMO application to make it a public right of way, but is yet to be decided upon. We haven't even had the consultation or hearing yet pre any outcome.

Whilst I note that it is in the Strategic plan to get as many permissive rights of way as possible (Page 44, section 6.4), it is wholly incorrect to mark CA2 as in place.

To confirm there is no permission (permissive footpath) there is no current right of way in place over my land. It is correctly signposted and the DMMO have all of the evidence of this. I also point out it is an active flood plain with access required for the Foss drainage board.

This is the only reason it is not fully blocked off by gates. This is giving some people the misapprehension that this is common land and/or that they have permission to pass through. Incorrectly marking this in the neighbourhood plan fuels the issue and confusion further.

Please amend all plans and confirm back to me

Thanks
