Q21

To which evidence document does this response relate?

Respondent skipped this question

Page 20: Comment Form

Q22

Do you support or object to the proposed modification(s)?

Respondent skipped this question

Q23

If you object, please select your reason from the list below (select all that apply):

Not positively prepared - i.e. strategy will not meet development needs

Not justified - i.e. there is no evidence to justify the modification

Not effective - i.e. it won't work

Not consistent with national policy - i.e. doesn't comply with the law

Q24

Please set out the reasoning behind your support or objection: Please note there is a 1000 character limit, therefore if your reason for support or objection is longer than this, please summarise the main issues raised.

The cumulative impact on Heslington of traffic and cycle routes into and around ST4, ST15 and ST27 has not been adequately considered. There would be opportunities with the proposed reconfiguration south of Grimston Bar for ST15, to link ST4 and ST27 directly into the road network to A64 there as well, while providing shorter, safer cycle/walking routes from the site into York.

Please set out the reasoning behind your support or objection: Please note there is a 1000 character limit, therefore if your reason for support or objection is longer than this, please summarise the main issues raised.

The cumulative impact on Heslington of traffic and cycle routes into and around ST4, ST15 and ST27 has not been adequately considered. . Greatly increased traffic through an already heavily congested area at peak times through Heslington down Field Lane into Main Street West and University Road as well as into Main Street South to access the facilities. Add in proposed cycle routes through the village the effect will be totally unacceptable

Please set out the reasoning behind your support or objection: Please note there is a 1000 character limit, therefore if your reason for support or objection is longer than this, please summarise the main issues raised.

No recognition of the effects on SSSI Heslington Tilmire a special sensitive area-The removal of the 5 year before development can commence span to establish and re-establish will have a devastating effect on both the fauna and flora. It has taken careful management over many years to establish alongside the area referred to as OS10 , all encompassed in a Higher Level Scheme . No description of a zone buffer – no buffer zone can protect from domestic pets. The area will be "saturated and destroyed " from the effects of walkers, dogs , bikes from the proposed town OS15.

MM 3.5.4 Primary access ST15 to A64 shown "indicatively" in the LP is very different from the route and detailed designs in EX_HS_P3_M7_EL_8 e.g. Appendix 1. CYC's indicative route would seem duplicitous. The amount of green belt required for ST 15, and its compensatory ST10 and the associated infrastructure required is not justified.

Langwith Stray, Long Lane and Common Lane, a rural single track is an unsuitable road to create a safe cycle and pedestrian routes from ST15 to Heslington and the University of York. Lane widths of between 3.2m and 3.9m are not acceptable for cycling in mixed traffic. There should be no vehicular access from ST15 to Heslington Village along these routes to maintain the character and setting of Heslington Village and for the safety and well being of the existing business and residential users

Please set out the reasoning behind your support or objection: Please note there is a 1000 character limit, therefore if your reason for support or objection is longer than this, please summarise the main issues raised.

A raised Grade Separated Junction south of Common Lane and associated link roads, will significantly harm the setting of Heslington Village including its Conservation Area, urbanising the area around the perimeter of York. Undermines the soundness of the plan for economic viability, ecological protection and historic and conservation reasons. There should be no consideration given to the developers proposal that a major road goes through OS10, an area already warranted in a Higher Level Stewardship Scheme. Impacts should explicitly include noise and light pollution and loss of BMV land for food production as well as increased congestion, ecological and health harms.
